

Hey!

My name is Fraser Luther-Yarwood. I am currently the Vice President for the faculty of HEMS (Health, Education, Medicine and Social care).

Before I came into this role I was a student at Anglia Ruskin University for 4 years to study my BA Education and MA Education.

I have an older sister who is currently an accountant so naturally we are both fighting for both 'favourite child' and 'most successful child' privileges

Just a little fun fact about me....I have a collection of over 136 ties and having a new craving for waistcoats!
