

YOU SAID, WE DID

FEEDBACK FROM THE UNIVERSITY FEEDBACK FORUM

CAFE

Can cash be used in the café?

Unfortunately not, we are a cashless University

More food varieties in the café needed, such as halal, more spice, stronger flavours, more hot food, more meal deals. More variety of condiments required.

The Café is always reviewing and refreshing its menu/ food options, and are open to suggestions

Coffee and sandwich machines required for when café closes and will help when the campus grows, the queues in the café can be long

This is being looked at for Phase 3, to introduce vending machines

Why does the campus not offer free tea/ coffee

We offer complimentary soup and fruit instead

FACILITY

Can we have more bins on campus

An additional bin has been added to the Café area, there is enough bins already located around the campus. As a campus we need to recycle more.

More seats needed across the campus as doesn't feel there is enough on busy days

The University is not yet at capacity so there is enough seating around the campus. This will be monitored as the University and numbers grow.

More quiet spaces needed as communal areas can get noisy at times

Bigger tables are needed for group work

The Reading room is a quiet space that anyone can use, If classrooms are empty students are more than welcome to use them too, please check the boards prior to use.

Computers in reading room need moving as are in direct sun light which makes it hard to see the screen at times

S&LS are in consultation with Jamie Jones to see if it is possible to relocate some of the computers to another area of the Reading room

Student kitchen needed on all 3 floors, and would help cut down queues downstairs and in the café

No plans to add in any more microwaves

ARU to keep reviewing timetabling to ensure there are not too many crossovers over the lunch period.

YOU SAID, WE DID

FEEDBACK FROM THE UNIVERSITY FEEDBACK FORUM

Not enough plug sockets, desks in the way, can room layouts be changed

Lecturers should facilitate room layouts, Jamie Jones to pick up regarding plug sockets and adding more sockets to smaller rooms

Charges from Laptop Bursaries do not fit in the plug sockets

S&LS to pick up and see what other plugs will fit into the laptops. If anyone that has a Bursary Laptop from the Uni please can you pop to the S&LS desk to help them identify what is needed.

Can laptop loans be extended past 3 hours

S&LS to look into as unsure due to battery life of current laptops being used

Internet issues

Eduroam is the best, you need to **forget all other networks.**

Not enough parking spaces in Bishops Road car park

We do have an alternative overflow car park now in the Regional Swimming Pool Car Park.

Can a camera be installed in the Regional Car Park

Peterborough City Council are in the process of installing one.

Can wellbeing appointments be available during weekends and evenings

S&LS will look into, to see what demand there is for this

How long is the CCTV stored for

It has a 30 day turnaround, Security will be able to check the CCTV straightaway if asked

OTHER

Behaviour etiquette in classes should be revisited regularly

Behaviour etiquette expectations to be highlighted during welcome weeks

Please can we have an SU space as when using the table tennis, we have been told to quieten down by lecturers

There is no planned SU space in the Phase 2 and 3 plans, however ARU and the SU are always in talks regarding the use of different spaces and will continue to look into its offering

How do I find out about Societies on campus

Check out the SU website angliastudent.com where you will be able to find out information on all our societies and events on campus

IT

CAR PARKING
