- RA's and feedback hub for uni halls//housing: After initial research into how the university website is structured, came to the conclusion that a hub may not be a feasible/useful tool. Looking into the possibility of developing a tile potion on the ARU app or Safezones app. Have had conversations in USU about RA's in terms of wellbeing of RA's and how they support other students when working.
- Another action for me was to look at misconduct in halls (As part of SRWG) I have not been able to take any figures or highlights to SWRG, as I am waiting for the results from the Rent survey to come out. However, we are in the process of developing the stages of the universities "Unsilenced campaign".

**Next steps:**

- Take relevant rent survey stats to meetings (SRWG, SEC and SSSG)
- Attending the whole development day coming up in April. Looking at what are the next stages within the university unsilenced campaign and working with the consent collective to review our current provision **under the four headings below**, identify where we like to see further development and agree actions.
  1. **Report-** including Anonymous and Named reporting tools to be released in March 2019 as part of the Unsilenced Campaign
  2. **Support-** including the Sexual Violence Liaison Officers, the broader Harassment Support Network and other activity such as the Good Lad Initiative and Self-Defence Classes
  3. **Regulate-** including the current complaints procedures
  4. **Educate-** including training and engagement with staff and students
