Sent a formal enquiry to the head of the university finances to ask for information on whether the University has a policy on responsible investment and banking. Also asking for them to advise us if the University currently has any financial endowments. We’ve also asked for a list of companies or financial products the University currently invests in through its endowment funds, along with the amount invested in each company or financial product.

**I’ve now had a reply from the university confirming that they don’t have any investments.**

Policy submitted to council to ensure the union lobbies the university to invest responsibly in the future. **POLICY FAILED TO HAVE ENOUGH VOTERS TO PASS AT COUNCIL.**

**I'm incredibly pleased to announce that we achieved GOLD standard in Green Impact for the first time in all our unions history this year.**
