3. Vegan options within the catering services at university will be placed separately from the non-vegan options – this is to allow ease of access for vegan students.			Not started
4. (If possible) Separate catering services will be provided at the university for vegan students such as a “Vegan Café” – this will prevent any cross-contamination of food due to their being produced separately. It will also mean that vegan students have a safe space to go to where they will not risk being called out for being vegan. This could be implemented by changing one of the many existing catering services around university into a “Vegan Space”.			Not started
