

Policy Title: Full and Part time Officers  
Accountability

Proposer name: Charlotte Hurden

Seconder Name: Ben Cronin

**Union Notes:**

- Everything the SU does is for the students, by the students. The Union have a responsibility to show how they are representing students, whether they are active or not.

**Union Believes:**

- The Union should believe that everyone has the right to understand the activities and daily events that happen within the Union.
- The Union wants to communicate to all stakeholders that they are included in every action the Union makes for the students by the students.
- The Union wants to ensure that all students feel updated with the actions and campaigns being lead by the Union, whether it be full time officers and part time officers (portfolio, liberation and faculty), with whom a lot of students don't actually know what is occurring in the Students' Union, especially as it is deemed a Union run by students for students, it is wrong to keep students unaware of its actions.

**Union Resolves:**

- Create a blog that officers (full and part time) can post a minimum of once every two weeks to update the students how they are being represented.
- This could be in the form of a poster, film, bullet points or a detailed paragraph. The blog could be as creative as the officer and staff would like.
- Create a pop up office every semester for all officers (full time and part time) to attend with Union Staff to update students on what they have done, and to actually engage with students.
- Ensure that all officers are undertaking at least 1 GOAT session (Go Out And Talk) each semester to stay in touch with students.
