

Increase Recreation Facilities in Anglia Ruskin 14-11-2013

Proposed by: Ben Davison (President of the Review The Media Society, Cambridgeshire)

Union Notes:

1. There is currently a student lounge in the Cambridge Campus and a Lounge and Bar in the Chelmsford Campus.
2. The Student Union controls the recreational facilities in the university and opportunities for students.

Union Believes:

1. All students should have access to similar recreational facilities whatever campus they are on.
2. The amount of funding required is not negligible but a small amount would go a long way to fulfilling equality.
3. Increased recreation facilities will improve student participation.
4. A students life should be a mix of hard study and leisure activities.
5. A student Lounge should provide aesthetically appealing environment for students to enjoy.
6. Students should also have a place to listen to CAM FM broadcasts in the university.

Union Resolves:

1. To best provide equal facilities across multiple campuses by adding a Pool table to the Cambridge campus and putting on gaming tournaments.
2. The gaming tournaments can initially be run by the Student Union itself and if successful can be transferred to be run by a society as shown by a successful Chelmsford society.
3. Improve the contrast and hue of the aesthetics in the lounge by increasing the lighting in the darker areas and improving the seating facilities.
4. Improve the notice boards in the Cambridge lounge too.
5. In all lounges cross campus put CAM FM on the speakers on a low volume as background music.
